**AMERICAN FRUIT EVAPORATOR!** The most practical and reliable Fruit Evaporator made. It gives unobstructed hot air currents above and below all fruit, thus insuring evenness of drying and no spoiled fruit. Beware of imitations. The AMERICAN is pre-eminently the fruit evaporation machine. Its uses range from domestic to manufacturing. It makes the highest quality of work with ordinary care in handling. There is no need of making anything else. Though we approve of the fruit evaporation machine, we are especially adapted for highest grade in unbleached work. It places fruit cut in highest and drier heat, cures cut surfaces at once and keeps them dry, thereby setting and making them more pliable and thereby, as in broiling, steaming, and roasting, our experience in evaporating at the disposal of our customers. In some cases the quality of service is of more value than prices paid for evaporators. Sold by J. T. RICHARDSON, Dealer in Agricultural Implements, Wagons and Farm Machinery, 235 and 237 North Los Angeles Street (Opposite Alamo Street) Los Angeles, Cal.
